

Simplify the Path to Community-Based Care.

Be proactive.
Find eligible
members before
they ask.

Centauri combines predictive identification with hands-on eligibility advocacy to find members who may qualify for Home and Community Based Services (HCBS) or Long-Term Services and Supports (LTSS) help them navigate the complex application and assessment process, and align benefits to the appropriate coverage category. This approach supports the transition to home- and community-based care when appropriate to the member's eligibility, needs, and care goals.

The result is fewer emergency room visits, reduced hospitalizations, lower costs, and maximum independence for the person at the center of care.
