

Out-of-State Billing

You know the ins and outs of maximizing Medicaid revenue in your state. What about the other 49?

NHI Billing Services, a Centauri Health Solutions company, specializes in Out-of-State Medicaid account collections.

With decades of experience, our team works diligently to simplify the process for you. We understand that it's difficult to stay apprised of ever-changing rules and regulations across all Medicaid Programs. We are here to guide you through the process from registration to reimbursement.

Since 1996, we've worked with healthcare providers to:

- Verify eligibility and authorization requirements 365 days a year
- Complete provider enrollment applications
- Bill Medicaid state agencies and designated HMOs
- Follow up on accounts
- Complete appeals

Today, we manage nearly \$1.5 billion in Medicaid claims annually.

For more than two decades, we've helped our clients identify revenue in accounts that would otherwise be written off. Thanks to our business model and commitment to quality service, our initial 25 clients remain with us today.

**POWER TO SOLVE.
PASSION TO SERVE.**

"We have been very pleased with NHI Billing...They are very professional and work very well with all of our facilities. This has been an excellent and very rewarding relationship. We have seen an increase in reimbursement for claims which would have gone unpaid. NHI is a very reputable firm and has high professional standards for their employees. I would highly recommend using NHI." -Large Regional Client, Western US

"It's a pleasure to work with NHI...Always looking for the best solution to challenging problems in our environment, we can count on them to imagine the future needs and then create (solutions). The integrity of service along with competitive pricing make them the ideal business partner." -Large Health System, Midwest US

Medicaid and Medicaid Managed Care

Clients benefit from:

- User-friendly and efficient web-based platform
- Ability to verify eligibility, check the status of claims, view remittance advice and detailed month-end reports on-demand
- Transparent technology that delivers increased collections, fewer claim denials and quicker payment turnaround times
- Client engagements with Billing and Enrollment partners assigned to facilities

Working with our diligent and detailed client support means less administrative work for your team. That allows you to focus on what's really important-- providing care to your patients.

**Don't lose revenue from Out-of-State Medicaid collections.
