# HEDIS®

Powered by Centauri Insights®

Increase the effectiveness of your HEDIS campaign with the identification of gaps in care for members and within provider profiles.

Targeted Member-Level Analytics

- Do you have a complete view of improvement opportunities?
- Are you able to focus your internal resources on closing the most impactful HEDIS gaps?
- Can you demonstrate year-over-year improvements you've made to quality of care outcomes during the HEDIS season?

2019 Care Gap Finder Dashboard

- Design intervention activities to address those identified gaps.
- Use actionable reporting to easily assess member care gaps and provider trends.
- Combine peer and prior performance comparisons with provider scorecards to schedule and produce flexible custom reports.

POWER TO SOLVE.
PASSION TO SERVE.

Leverage the knowledge of your member population

Centauri's ability to zero in on members with the most impactful gaps, is based on our use of HEDIS measure specifications and compliance with Allowable Adjustments.
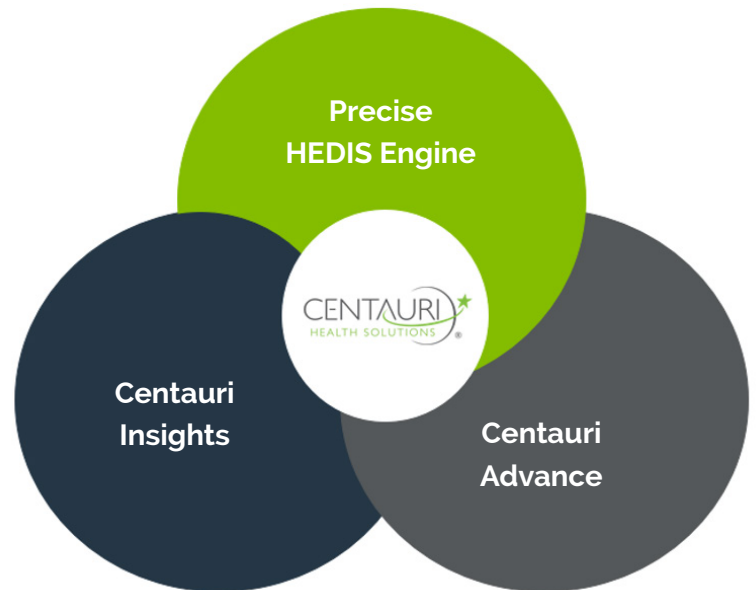

Leverage the Power of Centauri Insights

Centauri Insights reveals members who have missing conditions and highest opportunities for successful care gap closure. Potential improvement opportunities are identified for continuous chase optimization. Our analytics proactively report gaps in care throughout the year and tracks and trends results over time.

Integrate, Prioritize and Segment Reports

Identify gap closure opportunities with each member. With access to member, provider, and provider group level drilldown views, you will have the ability to create actionable reports. Internally audited clinical documentation from chart abstraction activities, ensures compliance with HEDIS® audit standards. Our analytics will help you turn data into action.
